

The Greatest Adventure – Tour to Baikonur to Spaceship Launch

Destinations:

Almaty - Baikonur

Duration:

5 days

Price from:

Per pax

2000 USD

Price includes:

Accommodation in Tsentralnaya/7 Winds/Berezhki Hotel in Baikonur, guide services, transfers upon the program, entrance fees, full board

Price does not include:

visa services

Day 1

Arrival Almaty

Check-in Tsentralnaya Hotel

Lunch

Visiting The International Space School after the name of Academician V.N. Chelomey

Unique and exciting excursion with launch of rocket models at the schoolyard at the end Diner

Day 2

Excursion to Korkyt-Ata Memorial

The Korkyt Tobe Mausoleum (or singing tubes in the Kazakh language) was constructed in the 10th or 11th century near the Korkyt burial site on the Syrdarya embankment. As the centuries passed, the site deteriorated. However, in 1997, it was restored by the local municipality along with a new hotel and other modern accommodations for tourists.

Back to Baikonur

Lunch

Sightseeing tour Baikonur city

Visiting Museum of the Baikonur history

Here you can learn about the foundation of the cosmodrome, its present activities and plans for the future. You can get to know a lot about those people who created the history of the famous Baikonur cosmodrome: outstanding scientists and designers, military leaders and organizers of military-industrial complex of the country and also about thousands of engineers, workers and testers of space-rocket equipment, military builders who stayed in the history background

Dinner

Day 3

Sightseeing tour Baikonur Cosmodrome

Visiting Museum of the Baikonur cosmodrome, Memorial houses of Korolev and Gagarin, the orbital ship "Buran"

You will see the large collection of unique objects such as first Lunar Globe and Y. Gagarin's personal belongings. In addition, you will visit Y. Gagarin's and S. Korolev's Memorial Houses where they lived before the first space launch. Lunch. After lunch we will go to Buran spacecraft - the only completed and operational space shuttle vehicle from the Soviet Buran program.

Transfer to the "Cosmonaut" Hotel

Monitoring of the report of the crew of astronauts

Walking along the Cosmonauts alley

Transfer to the watching area

Watching of the launch of the spaceship

We'll transfer to the launch pad for one of the highlights of the expedition: witnessing a Soyuz rocket launch into space. A few people ever have the opportunity to experience such a spectacle! The launch scheduled for this date is a Soyuz MS-04 flight for the ISS Programme. Soyuz MS is a manned spacecraft which will carry an international team of 3 cosmonauts to the International Space Station.

Day 4

Morning flight back Home
